The Best of All Worlds

Composica Enterprise gives you everything your e-Learning development team needs to create high-quality, stimulating e-Learning courses:

- The power of the Web
- Desktop-like user-interface
- Collaboration-friendly environment
- 100% programming-free

Lets Hear It for Collaboration!

Authors. Designers. Subject Matter experts. Reviewers. Whether you sit in the same office or are a world apart, Composica is a top-grade groupware environment. Each team member can access the centrally-located project using only a web browser, and work simultaneously in real-time collaboration with the others.

Ready. Set. Create.

With its intuitive desktop "look and feel", you will feel right at home as Composica brings you a world of creative instructional possibilities:

- Alluring interactivity features
- Highly customizable e-Learning activities
- Exciting visual effects
- Dynamic navigation options

Composica lets you choose, change, add and modify at will, making every element of every course you create truly your own.

Reuse and Reuse and Reuse

Composica saves you hours of time and effort by letting you save, catalog and reuse any element of every project you create.

- Reusable learning objects, assets, themes and widgets
- Central repository
- Design and logic inheritance

Integration That Puts It All Together

Composica is fully SCORM 2004 compliant. It integrates seamlessly with any standard Learning Management System to pass on performance data. It also helps you create extended course-related meta-data that your LMS can use to better categorize and distribute the content for future use.

New! Composica 3.0

PowerPoint Import

Authors are able to choose specific slides to import, the size and position of the slides on pages, whether to transform slide notes and comments to tasks.

Mind Games

The term Serious Games represents a new way to conduct tests and assessments in an engaging, friendlier, and more motivational environment. Authors can now implement serious gaming with five fully customizable Mind Games.

Publishing Formats

Projects can be published to:

- Web Server
- Zip File
- SCORM 1.2 Content Package
- SCORM 2004 Content Package
- Executable Application
- Installation Package

Author System Requirements

- 800 MHz processor
- 128 MEG RAM
- Windows 98 / 2000 / XP / 2003
- Internet Explorer 5.5 or higher
- 1024x768 Resolution
