ViewletPoll™

Create   Customize   Publish   View

Create custom Flash-based polls & surveys in less than 3 minutes.

ViewletPoll is a web-based polling service that allows you to easily create in less than 3 minutes a multiple-choice question and then publish it to your website or distribute it via e-mail. ViewletPoll comes with a complete administrative dashboard where you can access all the statistical information on your polls.

Use ViewletPoll to:

- Measure customer satisfaction.
- Get instant feedback on web site changes.
- Learn what your audience thinks about a proposed change to your service.
- Gather user feedback on a new product feature.

ViewletPolls are perfect for conducting quick market research polls within a targeted audience. It is a simple 4 step process:

1. Create the ViewletPoll
Create your ViewletPoll using a web-based form and customize the look of your ViewletPoll with professionally designed ViewletPoll "skins."

2. Generate the ViewletPoll
ViewletPoll will automatically generate the custom HTML code for your website or create a link for your email.

3. Distribute the ViewletPoll
You can distribute your ViewletPoll by cutting and pasting the HTML code directly into a webpage or e-mail the link to your audience.
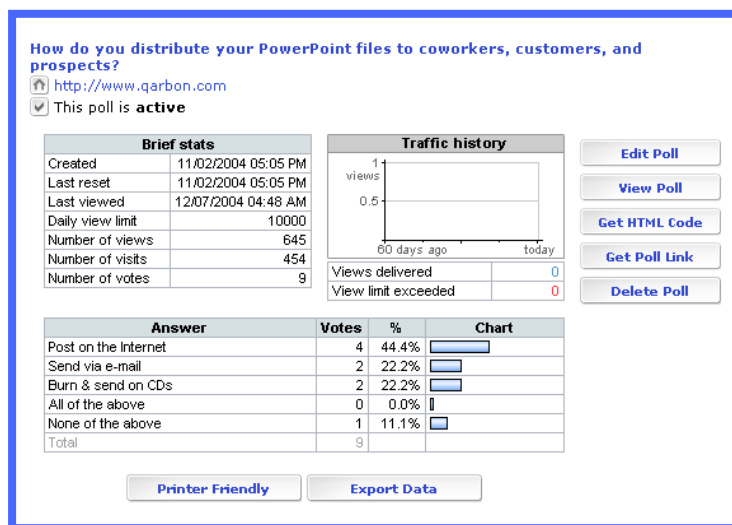

4. Analyze the ViewletPoll
Use the online ViewletPoll dashboard to review the latest statistics for your active ViewletPolls.
