ViewletBuilder6 ™

Capture   Edit   Annonate   Compile   Deliver

ViewletBuilder - the easiest way to create animated presentations - no programming required!

Captivate your audience with compelling software demos, simulations, tutorials, virtual tours and visual FAQs with the original Flash authoring tool.

Create animated content in minutes

Watch how ViewletBuilder takes a series of screenshots, merges them together with annotations and with one click, will compile them for a finished presentation. From start to finish in minutes!

Professional results

Create first-class quality in record time. Features like spell-check, interactive zones, effects and so much more contribute to the rich final output without the need for programming skills.

Ensuring ROI

Increase the productivity of your content developers and ensure rapid payback by using Viewlets to replace the need for expensive training.

Viewlet
The most effective and intuitive online presentation media.

That is why Viewlets have become the online presentation format of choice for more than 50% of Fortune 100 companies. With over five million demos on the Web, Viewlets are among the most popular ways of sharing information, providing technical support, presenting products and training new employees. A quick animated demo gets the point across much more effectively than words on a page.

Join thousands of organizations who use ViewletBuilder for
