Create interactive online demos, presentations, and simulations

Captivate your audience with compelling software demos, web animations, tutorials, virtual tours and visual FAQs with the original Flash animation software.

Supercharge your online training, support, marketing & sales

ViewletBuilder enables you to capture screenshots or import graphics quickly and easily, enhance them with text, graphics, shapes and audio, and publish the results as enhanced Flash files called Viewlets to share over the Web, on CDs, or via e-mail.

Thousands of organizations are using ViewletBuilder today to:

- Create and publish software demonstrations and simulations in minutes
- Improve customer satisfaction and retention with visual support tools
- Save money and time by providing online training for customers and employees 24/7
- Benefit from its multi-platform solutions

Fast, Simple, and Flexible

Anyone can use ViewletBuilder to produce effective, professional looking online presentations in minutes. It's as easy as 1-2-3.
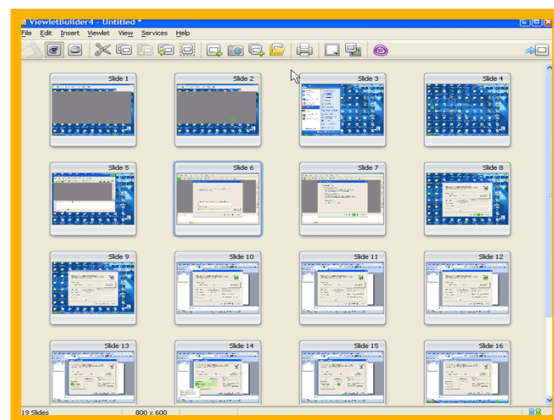

1. **Capture**
   Start ViewletBuilder, run your software application and take screen captures of your PC activity or import images.

2. **Edit and Enhance**
   Move or delete slides to re-organize your web presentation and then add emphasis and additional information to your individual slides with callouts, text notes, audio narration, graphic shapes and images, even interactivity such as quizzes.

3. **Publish & Share**
   Publish your presentations as small, secure Flash files and share them over the Web using ViewletCentral, Qarbon's revolutionary server-based storage & management system.

And best of all...
it's FREE!*
